RE: Tri-Star Roofing and Sheet Metal, LLC
Certification Letter

To Whom It May Concern;

Tri-Star Roofing and Sheet Metal, LLC is an authorized applicator of Carlisle SynTec roofing and waterproofing materials. Their team, lead by Chris Cook, has successfully been installing Carlisle for many years throughout the state of Michigan.

During this time Tri-Star has completed nearly 100 warranted projects totaling over 1.5 million square feet. They have done so with the quality and professionalism that North Coast and Carlisle are proud to stand behind. Tri-Star is also a member of Carlisle's 2016 Perfection Council. This means that Carlisle has recognized them as one of the Country's top roofing applicators in 2015 based on installation quality and warranty incident data from the past seven years. They are 1 of only 37 contractors to be recognized with this award.

We are proud to have Tri-Star Roofing and Sheet Metal as an approved applicator and partner.

Yours Truly;
North Coast / Carlisle SynTec

Mike Thackaberry

Territory Manager
